

## Biotechnologie médicale

Structure de  
formation  
Faculté des  
Sciences

Langue(s)  
d'enseignement  
Français

## Présentation

# Programme

## M1 - Biotechnologie médicale

### M1S1 - USTH Biotechnologie Médicale- Biotechnologie Végétale-Pharmacologie

---

Molecular Biology	5 crédits
Biochemistry & Enzymology	5 crédits
Introduction to pharmacology	4 crédits
Introduction to Biotechnology	4 crédits
Statistics and biological experimentation	4 crédits
Scientific communication, valorisation, project management	4 crédits

### M1S2 - Biotechnologie médicale

---

Languages, human, economic, social and juridical sciences_1	5 crédits
General Immunology	5 crédits
Biomedical Biotechnology	5 crédits
Bioinformatics for Genomics	4 crédits
Practical training in lab	10 crédits
General Oncology	

## M2 - Biotechnologie médicale

### M2S3 - Biotechnologie médicale

---

Languages, human, economic, social and juridical sciences_2	5 crédits
From genomic to system biology	4 crédits
Expression System & Bioreactions	4 crédits
Genetic, Cellular & Molecular Mechanisms of Human Diseases	4 crédits
Stem Cell & Nuclear Transfert	3 crédits
Molecular Biology of Emerging Viruses and other pathogens	3 crédits
Immunoinformatics-Bioinformatics of Antibodies	4 crédits
Functional & Comparative Genomics	4 crédits

### M2S4 - USTH Biotechnologie Médicale- Biotechnologie Végétale-Pharmacologie

---

Practical Training in Lab.
